CHANGE IN
CRIME SINCE THE
REPLACEMENT OF THE
CAMDEN CITY POLICE

The largest replacement of a police force in US history, the move made national news

The first statistics released since, comparing crime from Jan-Aug of 2012 to that of 2013, showed decreases in almost all major crimes including:

MURDER

-21%

ASSAULT

-5%

ROBBERY

-19%

14/18 types of crime decreased
3 increased
1 stayed the same

Hundreds of factors affect crime rates, and because 2012 was a particularly violent year, regression to the mean must be considered, but the initial stats for Camden County PD suggest a positive influence.

The overall crime index
dropped by

-15%
