

I will be focusing on "Information Literacy" and the role of the public library as a community resource. I will have a poster promoting the theme and a number of books focusing upon health and environmental issues that are available at CFPL. I will also be bringing handouts recommending useful websites related to those issues, information concerning CFPL branches, hours, policies and programs, and various library bookmarkers and paraphernalia. Hopefully that will be enough to incite participant interest in visiting our library and utilizing its resources.

All the best,
Alfred Encarnacion
Ref. Dept. at CFPL
